**DIOXI PLUS+** is a disinfectant with antimicrobial action indicated for sanitizing and disinfecting fruits, vegetables, and greens. It is indicated for food industries and similar industries, such as dairies, juice industries, meat packing plants, butcher shops, kitchens, etc.; for disinfecting surfaces, equipment and various utensils that come into contact with food. It can also be used to disinfect water for human consumption.

# DIOXI PLUS+

DISINFECTANT FOR FRUIT AND VEGETABLES

Version 00/2024

## INSTRUCTIONS FOR USE:

When handling the product, use appropriate PPE, such as gloves, mask, safety glasses, apron or lab coat. Do not shake the package before opening.

### DO NOT EAT, DRINK OR SMOKE DURING APPLICATION

#### For disinfecting fruit and vegetables:

Dilute **DIOXI PLUS+** in the proportion of 2 ml of the product for each 1 (one) liter of water. The solution should be applied by spraying or immersion. Leave to act for 10 minutes. It is not necessary to rinse after application. The solution is for single use only and should be discarded after application.

#### For disinfection in the food industry and similar areas:

Dilute DIOXI PLUS+ in the proportion of 2 ml of the product for each 1 (one) liter of water. The solution should be applied by spraying or immersion. Leave to act for 10 minutes. It is not necessary to rinse after application. The solution is for single use only and should be discarded after application.

Disinfection of water for human consumption: Add 25mL of the product for every 1,000 (one thousand) liters of water. After adding DIOXI PLUS+, leave it to act for 10 minutes before consuming the water or using it for other purposes.

## Inactivation and disposal method:

The diluted product can be disposed of directly into the sewage system, without the need for treatment.

## Conservation and storage:

Keep the product in its original packaging, in an upright position, closed, away from sources of heat, humidity and out of direct sunlight.

**KEEP OUT OF REACH OF CHILDREN AND PETS.**

## Precautions and warnings:

Do not mix with other products. Do not ingest. Keep the product in its original packaging. Do not reuse empty packaging. Avoid contact of the concentrated product with the eyes and skin. Avoid inhalation of the concentrated product. In case of direct contact of the concentrated product with the skin or eyes, wash the affected areas with plenty of running water and, if irritation persists, seek medical attention, taking the product packaging or label. In case of ingestion of the concentrated product, seek medical attention, taking the product packaging or label. If excessive amounts are inhaled, remove the person to a ventilated area.
