WTR

Version 00/2025

How to use:

During handling of the product, use appropriate PPE such as gloves, mask, safety goggles, and apron or lab coat. Do not shake the container.

Add 25 mL of the product for every 1,000 (one thousand) liters of water. After adding **WTR**, wait 10 minutes before consuming the water or using it for other purposes.

Caution:

Do not mix with other products. Mixing with acids or acid-based products produces toxic gases. Do not eat, drink, or smoke during application.

Method of inactivation and disposal:

The diluted product can be discharged directly into the sewage system without the need for treatment.

Storage and preservation:

Keep the product in its original upright and sealed position, away from sources of heat, moisture, and direct sunlight.
