

DIOXÍ PLUS AGRO

ADJUVANT FOR AGRICULTURAL USE

Multifunctional Adjuvant Fungicide and bactericide enhancer

Dioxí Plus Agro

More efficient application, more harvest productivity

Dioxí Plus Agro is an innovative adjuvant developed to enhance the effectiveness of fungicides and bactericides in the field. Its unique formulation improves spray dispersion, adhesion, and penetration, ensuring greater foliar coverage and improved pest and disease control performance.

With its simple use and consistent results, **Dioxí Plus Agro** helps optimize applications, reduce losses, and increase productivity, offering greater safety and effectiveness in agricultural management.

ADD TO TANK FIRST:

CULTURES	DOSE (L/100L water)	APPLICATION TIME
Terrestrial	0,2	Use in all applications
Air	0,2	Use in all applications

DIOXI PLUS AGRO
ADJUVANT FOR AGRICULTURAL USE

How to use:

Shake the product container before using it.

When preparing the spray mixture, fill half of the tank with water, add the product, and then complete with the remaining water volume.

Application:

Use according to the instructions on this label or following the recommendations of an agricultural engineer.

If you have any doubts about the product's use, contact the distributor Germina at (35) 99989-4520 or your local representative.

Observations:

Applications should be avoided in extreme weather conditions (very low or very high relative humidity, frost or rain);

Recommendations/Precautions:

- This product is not suitable for human or animal consumption;
- Keep out of reach of children and animals;
- Non-toxic to the environment when used within the technical recommendations.
- In case of contact with eyes or mucous membranes (mouth and nose), rinse with plenty of water and if irritation occurs, seek medical advice;
- In case of poisoning by ingestion, do not induce vomiting; seek medical attention immediately and bring this label with you;

Handling:

- Wear personal protective equipment (PPE) during handling (masks, PVC gloves, safety glasses, and appropriate clothing), avoiding direct contact of the product with the skin and eyes.

Storage/Transportation:

- Keep in a suitable, covered, dry, and cool storage location;
- Protect from extreme weather conditions (temperatures below 0°C and above 40°C).
- Ensure that the location where it will be transported is clean, dry, and free of debris.

Warranty:

The manufacturer and distributor guarantee the contents of the package, provided it is in its original packaging with no signs of tampering. The contents are guaranteed according to the descriptions on this label.

Do not reuse the packaging. Dispose of the product packaging appropriately.

Shelf life:

1 year from the date of manufacture and maintained under proper storage conditions.
